OBJECTIVE

To make participants aware about Waste and its Management. To effective use of resources; minimizing wastes; promote Green Productivity concepts & initiatives; and dissemination of good manufacturing practices.

WASTE MANAGEMENT:

Waste Management are the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process.

Waste can be solid, Liquid or Gas and each type has different methods of disposal and management. Waste Management deals with all types of waste, Including industrial, biological and household. In some cases, waste can pose a threat to human health.

METHODOLOGY

Interactive Presentation sessions, group discussions, group activity & exercises. Language of training will be mix of Hindi and English for better understanding of participants.
